### DFK CANADA MAINTAINS TOP SPOT!

#### EARNING THE NUMBER ONE SPOT IN THE 2015 BOTTOM LINE SURVEY OF TOP ACCOUNTING ASSOCIATIONS – FOR THE SEVENTH CONSECUTIVE YEAR

TORONTO, ON -- March 30<sup>th</sup>, 2016 DFK Canada Inc. continues to be ranked the number one accounting association in Canada as reported in the 2015 Bottom Line survey of top accounting associations.

As the largest association in Canada, representing 13 independent accounting firms with 30 offices serving major centers across the country, DFK Canada has over 128 partners, 555 staff and annual revenues in excess of \$128 million. The strength of the association lies with the continued growth and success of its member firms and with the open exchange of information between them. Although each of the DFK independent firms may have different needs, the organization is able to find common opportunities and to learn from the challenges that member firms may have faced at different times.

“DFK Canada’s commitment to provide their member firms with regular forums to exchange practice management ideas and solutions, technical expertise, continuing education and leadership development serves as the basis for the organization’s overall continued success” says Executive Director Lynn Morrovat. “These resources are available on both a National and International level.”

The affiliation with **DFK International**, a major association representing 200 independent accounting firms and business advisers with **over 415 offices** in 85 countries enhances our members reach worldwide and provides access to additional resources and to the expertise of one of the Top 10 specialist international accounting associations.
